

Hyde Mounts Cont...

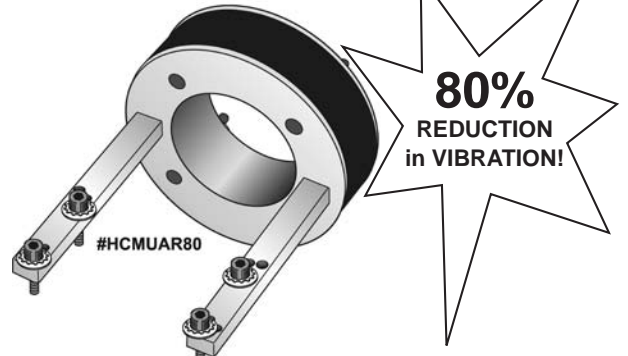

There are different mounts & cheaper mounts, but NO better mount in the world for pattern planes than a Hyde Soft Mount!

HYDE

MARK III FIRM IDLE MOUNTS

HYDE UNIVERSAL MOUNT

Part#	Weight (ounces)	CDR*	Specified Engine(s)	Our Price
Firm Idle MKIII Type CR	3.0	35%	YS120-170, OS140, OS160, OS200, OS120AX, SE, II, III, 3M140-170, WEB120-160, ENYA155, ST2300, SAITO 120, 150, 180	\$79.95
Firm Idle MKIII Type C	5.9	35%	YS120-170, OS140, OS160, OS200, OS120AX, SE, II, III, 3M140-170, WEB120-160, ENYA155, ST2300, SAITO 120, 150, 180	\$79.95
HCMUAR80	3.4	80%	Universal Mount: Fits YS 120-170; OS 160, OS 140; 3M 140-170; & Webra 120-160, as well as the OS200, OS120AX, SE, II, & III, Enya155, and ST2300 engines.	\$129.95
HCMYS110A	3.4	60%	YS110/91, OS 91-2/4c, SAITO 100/125, TT91	\$59.95
HCMYS140A	5.7	60%	YS 140	\$119.95
HCMO140A	5.5	60%	OS 140	\$119.95
HCMYS160AR	4.1	70%	YS 160-DZ & YS 170-DZ	\$98.88
HCMY4ARISA	6.0	80%	YS140-DZ	\$269.99
HCMY140ARI	6.0	70%	YS 140-DZ	\$189.95
HCMO140ARI	5.8	70%	OS 140	\$189.95
HCMO140RIA	4.7	70%	OS 140-RX	\$227.95
HCMYS160AR	4.1	70%	YS 160-DZ & YS 170-DZ	\$98.88
HCMYS14ARSA	4.0	80%	YS 140	\$219.99
HCMY16RISA	6.1	80%	YS 160-DZ & YS 170-DZ	\$279.95

TECHNICAL NOTES

*CDR: The percentage of "Current-Drain Reduction" which is the same as the amount of vibration reduction (see article "Getting What You Pay For" on previous page).

14 other "soft mount" brands tested perform about the same as a hard mount, reducing vibration from 0 to 15%. Expect about 25-75 flights

from your servos, pots, gears, linkage, vibration-caused maintenance cycles, etc. with a reduction in vibration of 15% or less.

Did you know...

35% CDR increases flight time per charge, and extends major flight equipment life considerably.

60% CDR nearly doubles flight time per charge, and extends flying equipment life about 10 times.

70% CDR gets you between double and triple normal flight time per charge, and extends major flight equip. about 15 times.

80% CDR increases flight time more than 3 times per charge, and extends major airborne equipment life from 20 to 50 times.

Some very soft Hyde Mounts have provided over 2500 flights on major airborne equipment with no maintenance required at all.
